CHICAGO, September 17 .- An estimate making the total wheat yield of the Dakotas and Minnesota 6,000.000 bushels larger than was indicated by the government had much to do with weakening prices here today. At first, however, the market showed a hardening tendency, due to bullish toreign news. You Would Think a Business Man a Fool

If he continued indefinitely running a business where the expenses are up all the profits.

Apply the same rule to your personal affairs. If your expenses are eating up all your income you are simply eking out a bare existence, with ruin perpetually at your elbow.

And there is less excuse in your individual case than there is in running a business, because it is quite possible for you to reduce your expenses. If your income was reduced two or three dollars a week you would manage to get along just the same, consequently if you really make up your mind to save some money each week you can do it.

It's worth the effort, for saving is the sure way to "Easy street."

one of the best catchers in the American League, and even this season some judges have placed him upon the roster of the crack team that might represent that organization. But Bill Carrigan has been away off in his work, this year, his show ing has been a distinct disappointment and the fact that he is now warming the bench most of the time is the bes indication that Manager Donovan no longer considers him as the first string man on the Boston catching staff.
Wood, however, will not be traded. The speedy pitcher has been in bad shape all season and although he has pitched few splendid games for his club he has been upon the sick or injured list so long that he has not been of much real use to the team. Nevertheless, both President Taylor and Manager Donovan feel that Joe Wood when right is a wonderfully effective pitcher. It is an open secret that every team in the American League would like to annex him, and this being the case the Boston magnate
